## **DETAILED ACTION**

### ***Drawings***

1. Figures 2-4, 6-8, and 10-11 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.121(d)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Figures 2-4, 6-8 and 10-11 are shown identically in Figures 2-4, 6-8 and 11-12 of US Pub No. US 2004/0078159 A1 published 4/22/04.

### ***Allowable Subject Matter***

2. Claims 1-20 are allowable over the prior art of record. The closest prior art of record is clearly Rober (US Pub No. US 2004/0078159 A1 which matured into US Patent 6,789,029 B2). The clear difference between instant independent claims 1, 9 and 14 and claims 1, 9 and 16 of the Rober Publication/Patent are: as per independent claim 1, "normalizing the first component of interest using amplitude information from the first signal"; and as per independent claim 9, "normalizing the first angular rate using amplitude information from the first signal"; and as per independent claim 14, "a drive signal...; and a scaling unit...to normalize the first component of interest." The prior art

Art Unit: 2857

of record does not suggest or disclose the claimed combination of method steps or system elements, particularly the additional feature(s) indicated above.

3. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

***Conclusion***

4. This application is in condition for allowance except for the following formal matters:

See above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
